A Game-Changer for Road Trips

Reviewed in the United States on June 23, 2023

Color: Orange **Verified Purchase**

This tablet holder was an amazing purchase that saved us on a long road trip. My toddler was mesmerized by "truck movies" and was happily immersed in her shows for an hour or so at a time. It is very easy to install and seems high quality. I've been able to move it back and forth between vehicles with different sized headrests so it seems to be pretty adjustable. Overall, great value for money.

Bought for 480. This is a top. There was a boseus mount before, which was found to have disadvantages: 1. the child can kick the tablet from the mount with his foot; 2. it is difficult to put the tablet in the mount on the way. This mount has solved these problems. I recommend who have children under 3 years old

After 2 uses, the clips fly off, the seller ignores. Either look for other clips or throw out

I couldn't fit any tablet in this case and it wouldn't go over my seat headrest. Very disappointed.
